

WEDE5020

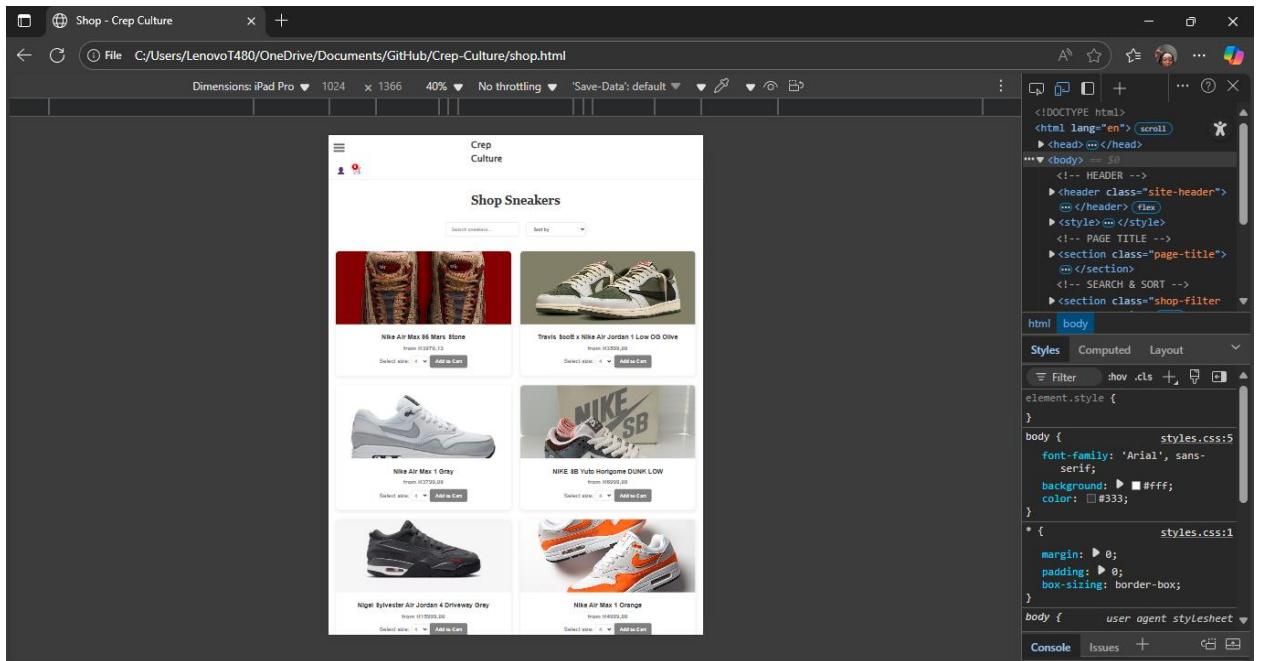

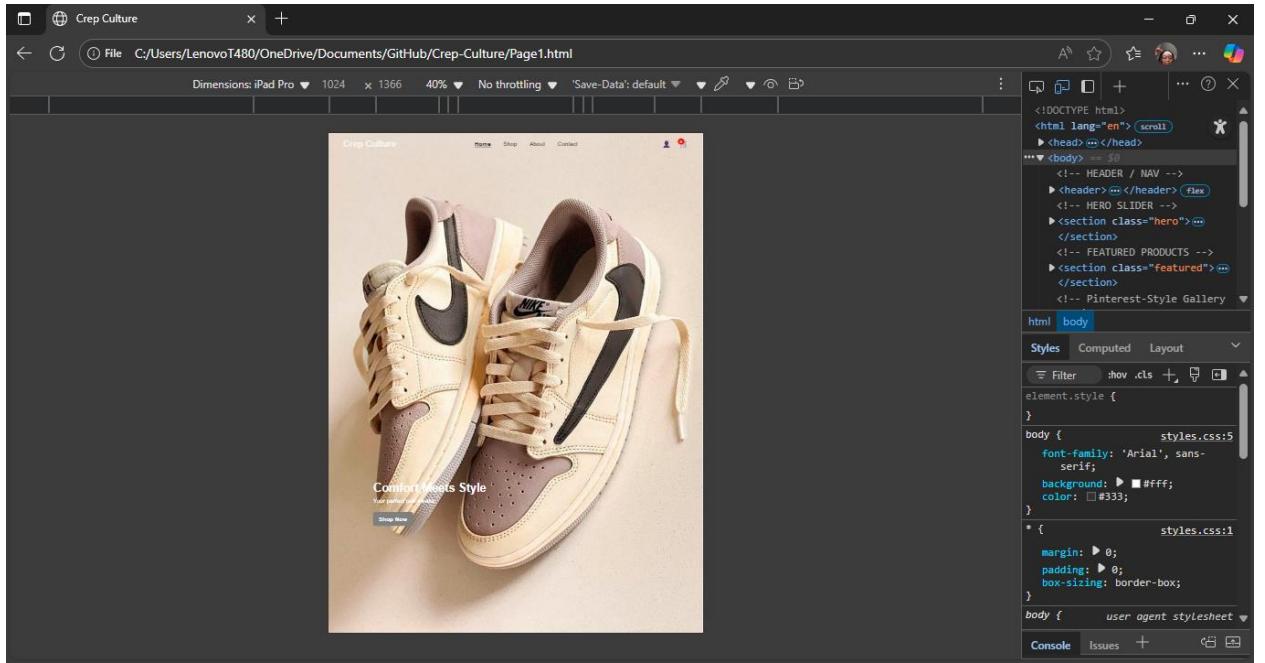

Part 3 (Final Submission)

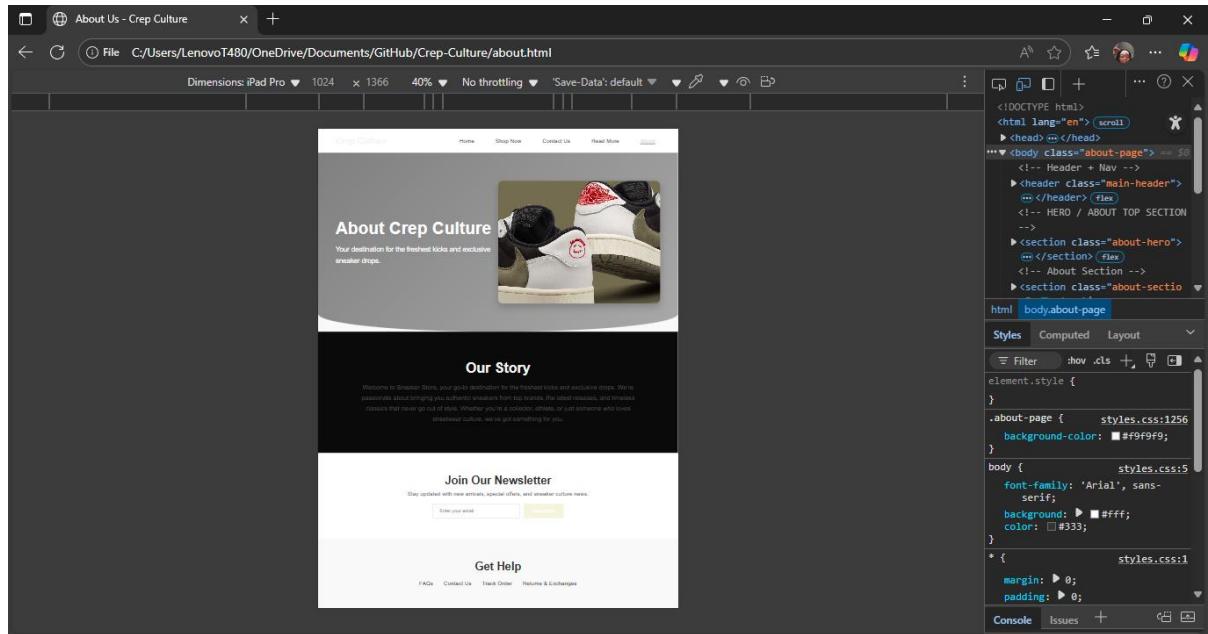

These are the screenshots of my website and how responsive it is in different devices:

- Screenshot/s of a mobile device

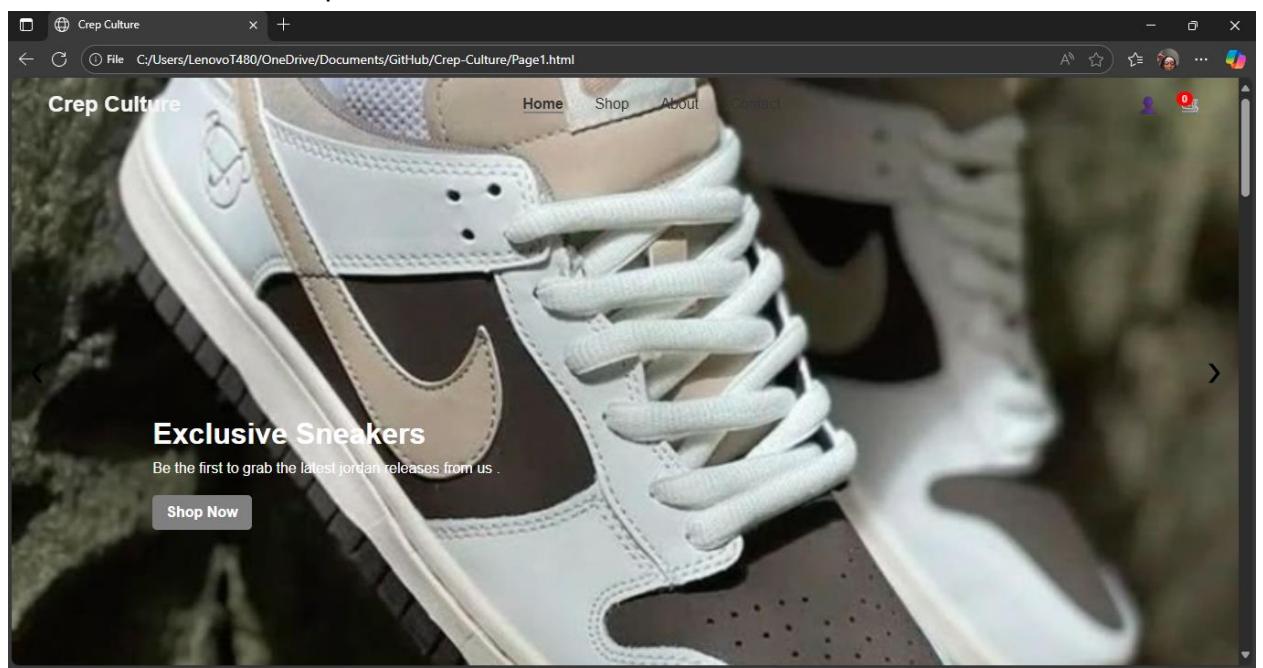

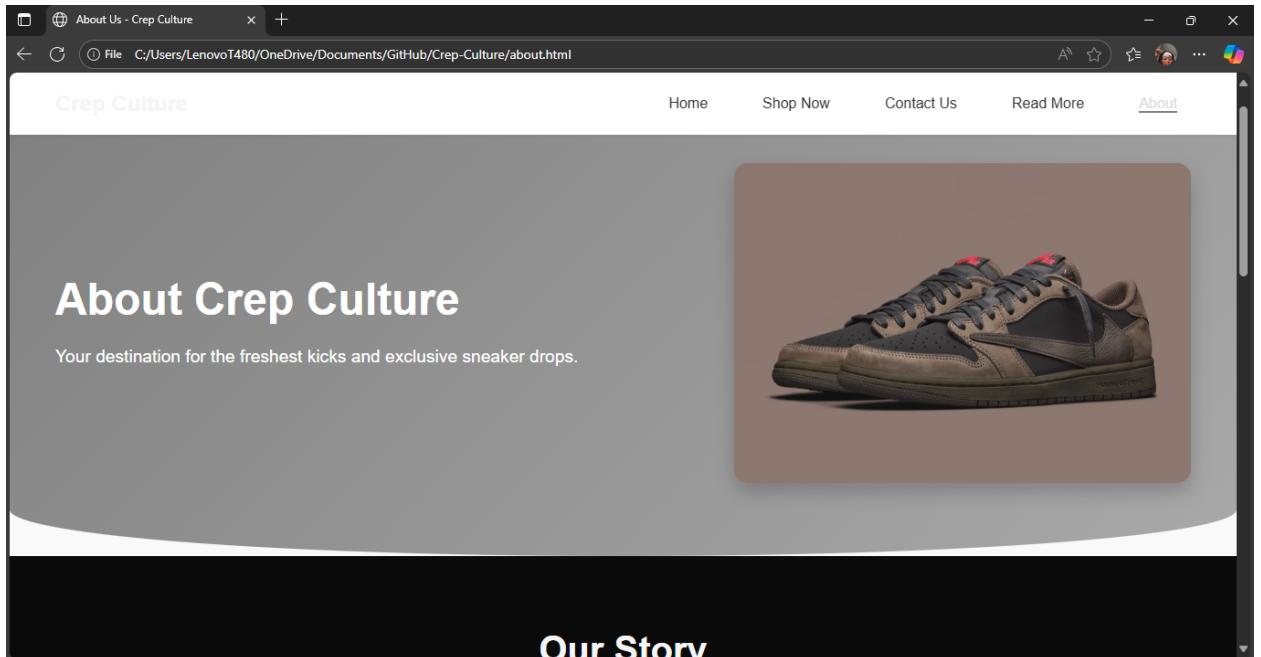

Screenshot of a tablet

Screenshot of a desktop

A screenshot of a web browser showing the 'Contact Us' page for 'Crep Culture'. The page features two side-by-side Google Maps. The left map shows a local area with a red marker near 'Spectron Electronics CC'. The right map shows a larger area with a red marker near 'DVT Johannesburg'. Below the maps is a form titled 'Get in Touch' with fields for Full Name/s, Surname, Email address, and Phone numbers.

2. Here is the link to my GitHub page that shows all commits I have made on both the actual website and my ReadMe file:

<https://github.com/ST10483757/Crep-Culture>

3. The resources below are the sources I used as a guide for designing, developing, and the overall functionality of my website. These sources guided me, and I used them to learn

more about web development concepts deeply, design inspiration, and how to make a website function the way I wanted it to. I used these materials responsibly to further enhance my overall coding skills and create a visually and aesthetically pleasing responsive website, while still maintaining coolness and improving overall user experience.
